

Accu-Chek® lancets: Your choice for convenience and patient comfort.

Now it's even easier to reduce the pain of blood sample collection for all patient types with Accu-Chek lancets.

We're offering new choices in professional-use lancets to make sample collection as painless as possible for your patients.

The safety, comfort and convenience of Accu-Chek lancets, available in two great options.

Accu-Chek Safe-T-Pro Plus

Three depth settings, one lancet

Simplify care and inventory with the only multi-depth, single-use professional lancet.

New! Accu-Chek Safe-T-Pro Uno

Easy to use, cost-effective and virtually pain-free

Minimize pain while meeting the need for an adequate blood sample.

ACCU-CHEK®

Choose the lancet that's right for your clinical needs.

With the Accu-Chek Safe-T-Pro Plus and Accu-Chek Safe-T-Pro Uno lancets, you're able to choose the best lancet for your patients and your staff—improving patient comfort and workflow efficiencies. Both lancets are designed to reduce the spread of infection and meet the latest safety requirements while minimizing pain for patients.

Accu-Chek Safe-T-Pro Plus

Accommodate different skin types with one lancet to best meet patient needs.

1.3mm, 1.8mm and 2.3mm depth settings

23g retractable needle

Single SKU simplifies inventory control

Approved for use with neonates

Accu-Chek Safe-T-Pro Uno

Improve patient comfort simply, safely and affordably.

1.5mm depth setting

28g retractable needle

Approved for use with neonates

Two lancets from the #1 brand in hospital glucose testing.

Accu-Chek Safe-T-Pro Plus and Accu-Chek Safe-T-Pro Uno are not only designed to work seamlessly with the Accu-Chek Inform II system, but are also suitable for all your blood sample needs. Accu-Chek lancets are backed by the superior service and support you've come to expect from Roche Point of Care.

For care you can count on, the choice is Accu-Chek.
